

Lucens, the June 24th, 2019/FFF

PRESS RELEASE - JUNE 2019 - THE NEW HOSPITAL

“There is no big success without difficulties! We are experiencing it right now!”

Dear friends, dear Madam, dear Sir,

In recent weeks, the [Indonesian foundation](#) has encountered **temporary difficulties** related to the **operation** of its [new hospital](#).

As we told you in one of [our previous post](#), we had to **change** some **members** of the [Bali Sari Foundation](#) (BSF) Foundation **Board** for **legal** reasons. This change was also made **necessary** because the **trust** was **broken** with **some members** of what we can now call "*the former foundation board*". **Moreover**, these **unscrupulous** persons **not** or **no longer** met the [basic values of the foundation](#). Which is **unacceptable** to us.

Since we have **legally** and **transparently** changed [the members of this foundation board](#), things are going **much better** and **trust** is fully **restored**. The foundation's [programs](#) are working well, we are **caring** [thousands of people](#) and the [community actions](#) are **multiplying**.

About our [new hospital](#), two of the **former members** were showing **malice** and **revanchist** spirit. This is translated by **idiotic** and **unfortunate** actions, obviously quite **illegal**, in order to put "*sticks in the wheels*". These actions are **summarised** by **violent threats** on the person of [Mr. Alex Wettstein](#) (*he is used to it btw...*), **sending** emails to our **partners** and **friends**, **illegal** messages of incredible **stupidity**, containing **lies** and totally **false facts** that goes without saying.

This results in a **delay** in the **optimal** operation of our [new hospital](#). Obviously at the **expense** of people **who are waiting** for **medical care** and **free health care benefits**, by the Foundation.

Since then, the [Indonesian Foundation](#) (*accompanied by the Swiss Foundation*) has **taken steps** to **restore** order and **smooth running** in its program. These problems only **affect** the **program** of the [new hospital](#), which is, as you know, our greatest **achievement**, our greatest **challenge** too.

These **steps** are legal and we are **accompanied** by our **Lawyer** and our **Notary**, who provide us with **advice** and **support**. These steps should be **completed shortly**, I can only assure you.

In order to **solve** these difficulties, our organisation **favours dialogue** above all else. It goes without saying that we **refuse** any form of **blackmail** and **provocation**. We knew that **implementing**, **building** and **running** this type of project (*a free hospital*) would be **sensitive** and we **expected** to have **difficulties**, so this is not a **real** surprise for us.

The members of [the new board](#), including **Mrs. Kadek Suwitri** and **Mr. Pande Yulia Sanjaya** are active **every day** to ensure that these people become **aware** in **one** way or **another** that they are

acting illegally against the **interests** of the **beneficiaries** and also **against** the **interests** of our **two foundations**. **Sanctions** will therefore be **taken**, I can assure you.

Note that **tomorrow** 25th of June, a **working meeting** between the **new foundation board** and the **local authorities** is planned, already we have their support.

With these few lines, and on behalf of the [Swiss Foundation](#), we ask you to be **patient** and to **listen** to us. You know that sometimes **things** can be **complicated** when it comes to **common** interest. Some do not distinguish between **personal** interest and **common** interest, which is **distressing**, but **ultimately** not a huge surprise...

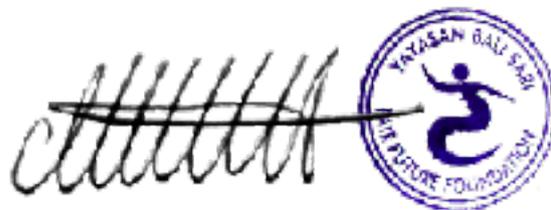

It is a **great first** for us to have to **fight** to **restore** justice for **all**. While it certainly costs us **energy**, **time** and **endangers** some of the **main players** in this project, but we are **standing up** right in the face of **adversity**. We **smile** at these problems and take them **seriously** by putting in place **effective actions**, respecting the framework of the [Mission](#) of the Foundation, its [Ethical Charter](#).

We **thank you** for your **attention** and we thank you for your **help**. Because we **really need you**, your **encouragement**, your **good words**, your **support**, **messages** that will give us this beautiful **energy** that we **need** at this time.

For any **further information**, you can contact [Alex](#) or [Pande](#) here, who are the **official respondents** of the **Swiss** and **Indonesian** Foundation.

Very sincerely.

[Alex Wettstein](#) - CEO, President and Founder of the Fair Future Foundation.

The image shows a handwritten signature in blue ink on the left, which appears to be 'Alex Wettstein'. To the right of the signature is a circular official seal. The seal contains a stylized figure of a person with arms raised, and the text 'FAIR FUTURE FOUNDATION' around the perimeter. The seal is also in blue ink.
